Will Federal Government
Make An Inquiry?

Another Mixup Under
Tax Recovery Act

Membership Drive
For Pools in June

ALLEGED ATTEMPT TO
DESTROY WHEAT POOLS.

Will the Federal Government make an investigation into the charge that a combination was deliberately organized to destroy the three Western wheat pools? This is said to be the theme of a sensational disclosure among all wheat growers in the grain trade following the definite charge made by G. Robertson, of Regina, secretary of the Western Wheat Pool, that big interests at \$1.45 a bushel to the low bid for the wheat to be sold at \$1.35, which was the amount reported by the initial and interim payments of the pools.

Mr. Robertson said that data was selected because Saturday was the day for mailing out the second pool payment of \$50. In fact, wheat sold at that date reached the level of \$1.34. Winnipeg mail exchange members ridicule the statement of Mr. Robertson as not based on anything further than mere surmise, but since the charge is not made against exchange "big interests," and is further qualified by the statement that "we do not believe that the majority of the legitimate members of the grain pools were concerned in the conspiracy," no official demand for a Federal inquiry into the alleged action of the wheat pools is made.

Oliver grain men were reluctant to sign the statements made by Mr. Robertson, that they had been manipulated and detrimental effect on the part of big interests to destroy the wheat pools and to establish the whole co-operative marketing movement on the North American continent.

Should Prove Statements.

C. W. Robertson, president of the Calgary Grain Exchange, however, mentioned that if Mr. Robertson could prove his statements, the wheat pool men would not be so friendly, very friendly," and Mr. Robertson continued to pay out their money to the wheat pool men. Mr. Robertson mentioned should move to the contrary, indicating that the wheat pool men were not going to embark on the pool.

Seven constituents of the total number of 15 in Alberta, three of whom are Mr. W. H. McLeod, Mr. C. W. Robertson, and Mr. C. W. Robertson, are eliminated and a new committee of five is named for the establishment of a Provincial legislative redistribution map of the province prepared by Hon. Alex. Ross, minister of public works.

Financial Aid For
Alberta Pools

Following a brief discussion, the Agricultural Committee of the Alberta Legislature, including the full membership of the house, recommended to the government that an advance of \$10,000 be made for preliminary expenses in organizing three co-operative pools—livestock, dairy, and grain.

Dr. H. M. Tupper, of the University of Alberta, gave an address regarding the building of the proposed pools, and the establishment of a Provincial legislative redistribution map of the province prepared by Hon. Alex. Ross, minister of public works.

Lambton Municipal
District Council

Canadian Bank of
Commerce Memorial

UNVEILED AT THE DELIA
BRANCH

The usual monthly meeting of the above council was held at Craigville, on Monday, April 6. All the members being present with the exception of Councillor McPherson. The secretary reported that he had received replies from all the surrounding municipalities with the exception of Stokton concerning the employment of a Public Health nurse, and that they were all opposed to the idea.

The council decided that it was too much money this year to bear the expenses of a Public Health nurse alone, and Councillor Davey moved that the matter be tabled.

A letter was read from the Department of Municipal Affairs in connection with M. O. Hall, in which it was suggested that his man's relative could be compelled to look after him under the Maintenance Order Act. The secretary was instructed to get further particulars on this matter.

Councillor Davey reported that Dahlen, who had been sent to Rochester by the Council, had returned and that the doctors there had been unable to do anything for him. It had been necessary to grant Dahlen \$10 in addition to the amount previously authorized in order to cover his expenses.

The Registrar's order in connection with the R.R. 35-32-16-4 was read.

J. E. Blose, the housekeeper, and R. E. Blose were present in connection with the matter of an application for a license to sell and compound. Nine of Albert's horses were impounded by Mr. Locke on Feb. 28. On the same evening they were taken to a municipal which had blown over the fence, and Blose was unable to re-capture them at the time.

Following the meeting a conference was held between the members of the Board of the Central Alberta Pool and the members of the Provincial pool, the representatives present being their best support and gave them advice in regard to the proposed drive.

The members of the Board of the Provincial Dairy Pool met with the directors of the Central Alberta Pool and the members of the Provincial pool, the representatives present being their best support and gave them advice in regard to the proposed drive.

The members of the Board of the Provincial Dairy Pool met with the directors of the Central Alberta Pool and the members of the Provincial pool, the representatives present being their best support and gave them advice in regard to the proposed drive.

Reports on
Canada's
Crops

At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free Upon request at any Branch of the Bank your name will be placed on our mailing list.

Alberta Government
Crop Report

5000 Facts About Canada

Work on the land in preparation for the 1925 crop is now fairly general throughout the province. More in Southern Alberta were able this year to plant an unusually early crop of wheat, and operations in most districts in the south have been in full swing for some time.

In the second and third districts the wheat has been somewhat late, but work will be general within the usual time in these districts and seeding will start at a few points next week.

Spring operations the year are fully well under way, and the work on the land is not expected to stop until the latter part of April.

Throughout the entire province operations are reported to be very active. The heavy work of the seed winter has been gradually and the land is now being prepared for the spring, with the result that practically all districts have sufficient seed to guarantee a new crop. The report from the south-eastern districts is that the best to better supply with moisture than for some years.

Present indications are very lively indicate a wheat season, in the south-eastern districts there will be a reduction in wheat areas, and in other parts of the province the wheat is not so much as the wheat crop to any great extent.

Before adjustment on Good Friday, the Alberta Legislature gave assent to the legislation which gave effect to the re-organization of the Legislative Northern Irrigation trust for culture water purposes. The bill as passed would make available about 70,000 or 80,000 irrigable lands for colonization.

Big Immigration Scheme
For Australia

The British government is said to have concluded an agreement with the Australian Commonwealth government for sending in the emigration of 450,000 people from the United Kingdom in the next decade. These emigrants will include 34,000 families, averaging five persons each.

The scheme involves the raising of \$125,000,000 by the British government to contribute nearly \$27,000,000 towards settling 42,000,000 immigrants in Australia.

More British Boys
Anxious to Come

Many applications are being received by the Overseas Settlement Board from British youths who are anxious to come to Alberta to learn agriculture on the Homestead system.

During the winter months, some 25,000 or 30,000 boys were trained as farm boys under this scheme. Next season it is planned to distribute the young men who may contribute to the settlement of the province, with a new arrangement, with the Overseas Settlement Board with respect to a share of the cost.

Cost of Government in Canada.

The cost of the Canadian Government of the Dominion is \$5,000,000, with a 18 cabinet ministers, 10 ministers, 100,000, and the secretary, \$1,414,000, and the province, \$1,275,000—treasury more per capita than any other English-speaking country. There are nearly 900 legislatures, all told, in the Federal and Provincial parliaments.

Valuable Horses Poisoned.

Caused through eating poplar plant stacked around a straw stack, I. C. Jackson, of Manton, had the misfortune to lose twelve head of valuable horses a few days ago.

KODAKS

Now that the beautiful days are here it is easy to take pictures and keep a remembrance of the interesting things as they occur.
